

## HFO1234 Material

### MANIFOLDS: HFO1234 approved

#### MV2HFO set

- 2 way Valve deep vacuum manifold way
- gauges 80MM HFO1234
- carton box

#### MV2HFOS5QC set

- 2 way Valve deep vacuum manifold
- gauges 80MM CL1.0 HFO1234
- HS5 Standard hoses 150CM
- 1x QCH123414 1x QCL123414
- AD84L adapter
- case

#### MTHFO134

- Workman Triple seal piston manifold
- Gauges HFO1234 + R134A
- Hoses 1.8m
- Quick couplers (QC123414Set + QC90SET)
- AD84L + AD84 HFO tank Adapters

<http://www.cpsproducts.com/product/hfo-manifold-2-valve-MTHFO134/>

#### MGHFO134

- Ball Valve manifold
- gauges HFO1234 + R134A
- Hoses 1.8m
- Quick couplers (QC123414Set + QC90SET)
- AD84L + AD84 HFO tank Adapters

## LEAK DETECTORS

HVAC

**LS2** Full Automatic leak detector, featuring E\_MOS™ technology. (Enhanced Metal Oxide Sensor technology) € 400,93  
<http://www.cpsproducts.com/product/electronic-leak-detection-ls2/> - 39% = 244.00

The E\_MOS™ sensor technology incorporates a proprietary pulse modulation design to increase both battery and sensor life. A Fully automatic electronic refrigerant leak detector designed for the **HFO** refrigerants, R32, NH3 ammonia, H2N2 tracer or former gas, as well detect the regularly HFC, HCFC, CFC gases & blends.

LS2

**REF LOCATOR** Full Automatic leak detector, sensitivity 0.0125 oz./yr HFO R-1234yf cer g

€ 315,80

CFC's, HCFC's, **HFO's**, H2N2 former or tracer gas as well as all halogenated vapors and gases.

**REFCO & DIGIMON** your best choice for HFO R-1234yf

263,00

## UV Dye

Our universal UV dye is suitable for HFO1234 refrigerants.

UVUD list price € 63,19

## VACUUM PUMPS: All our vacuum pumps are approved to use for HFO1234 refrigerants

## RECOVERY MACHINES: All our oil-free recovery machines are approved to use for HFO1234 refrigerants.

**RRR Recovery Recycle Recharge machine HFO1234 approved**

**FA1234E CONVERT-ABLE MULTI REFRIGERANT Recover / Recycle / Recharge**

€ 5.481,00

The FA1234 is a patented multi refrigerant Convert-able R / R / R machine that can be converted for use with any of the following refrigerants in 5 minutes or less: R-134a, HFO-1234yf, R-22 and R-407C. This R / R / R convert-able unit is currently the only machine in the market without fear of cross contamination when converted back and forth.

- ball valves instead of solenoid valves (increases flow rate / avoids valve leakage caused by dirt contamination)
- converting from one refrigerant to another in 5 minutes or less (back and forth)
- for use with multiple refrigerants without worry of cross contamination
- can be used for cars, buses, trucks, heavy-duty... (minimal conversion necessary)
- interchangeable external cylinder connection
- fastest oil-free twin cylinder compressor in the market (maintenance free)
- high performance 6 CFM vacuum pump, up to 50% faster vacuum.
- easy and safe to transport with minimal adjustment required
- solid steel construction
